

Dear Brothers,

Salam alaikum

On behalf of my company , HEMANI general trading, Dubai, I'm very much interested to attend the conference as well participate in exhibition

Me and my wife will attend, so please confirm our name

Since am doing very good business with Iraq and our business is increasing daily, Iraq is a big market n it has 4 major border, (Syria, turkey, IRAN & Jordan) these are country where lot of custom restriction n regulation, so now Iraqi people is buying big quantity n selling in local market as well goods going to above countries

For your ready reference am presently in Karachi with my 2 Iraqi buyers, we made big deal for various foodstuff n herbal products

As per there statement situation in Iraq is 70% better n buyers coming to Baghdad from several parts of the country

You can just imagine that the shop available before at less then USD 10000, now difficult to get even at USD 150,000

This is the clear picture how Iraq is developing n there might be several other opportunity but someone has to explore

Being a businessmen, we have to take risk n it is an investment n you might get good chance, & this type of chance comes once in life time

I gave my suggestion n shared my experience

Now our member has to decide

Thanks n regards,

MUSTAFA HEMANI
